

The Custom Experience

SUMMER 2008

 **DIGITAL DELIVERY GROUP**
Pacific Northwest

CUSTOMPLUS
DISTRIBUTING

What makes Mitsubishi Digital TVs the best choice in a market flooded with cheaper options?

1080P 

Tru1080p Processing: All signals are passed through with no down conversions, allowing more than 2 million pixels to be delivered on-screen for a full 1920x1080 resolution.

SMOOTH 120Hz

Smooth 120Hz: A unique Mitsubishi technology in both DLPs and LCDs, this feature displays more fluid, natural and smoother fast moving images, free from motion blur.

 **x.v.Color**

xvColor: The new standard in high definition color, the x.v.Color Wide Color Palette enables more color than ever before—twice the color spectrum of regular HDTV signal—for breathtaking realism and vivid, natural colors.

 **PerfectTint™**

PerfectTint: Exclusive to Mitsubishi, this feature provides the ability to adjust the tint of six separate colors independently of each other and separately for every input.

3D READY

3D Ready: The next evolution in Home Theater. This feature immerses you in video games, movies or sporting events. As more content becomes available in 3D, this functionality will develop into one of the most exciting HDTV experiences.

 **COLOR 4D Video NOISE REDUCTION**

Color 4D Video Noise Reduction: Adding an extra dimension to picture performance, this feature filters video noise more efficiently, yielding clean crisp images.

DEEP COLOR

Deep Color: Deep Color creates smooth transitions between different shades and eliminates color bands and complements x.v.Color™'s wide color pallet. Enabled by HDMI™ 1.3, Deep Color goes beyond previous 8-bit HDTV.

 **Full Spectrum COLOR**

Full Spectrum Color: This feature results in 25% more color than standard LCD. Mitsubishi uses a wider range of phosphors in its backlight system for a richer, fuller spectrum of colors.

Easy Connect™

ClearThought Easy Connect: Connectivity made easy! During set up, Easy Connect recognizes each input as it is plugged in, prompts the user to name it, enters it into the Device Menu and only shows used inputs.

(SOUND PROJECTOR)

Sound Projector: A whole new dimension in sound. Giving you true-to-life 5.1 surround sound without bulky receivers or additional speakers, this sound comes from an integrated sound projector comprised of a 16-speaker array.

SWIVEL BASE

Swivel Base: Why submit to sitting where your TV faces you if instead you can make your TV face you where you sit? Rotate the television display in the direction that suits you best (+/-30°).

 **PerfectColor™**

PerfectColor: Gives the ability to adjust the intensity of six separate colors independently and separately for every input. PerfectColor™ is a full color matrix, much more powerful than a conventional color intensity control with red versus green color balance.

4 HDMI™

4 HDMI & 3 HDMI: Ranging from 3 to 4 HDMI inputs, Mitsubishi DLPs and LCDs offer the most advanced connectivity for all your favorite AV components.

6COLOR PROCESSOR

6-Color Processor: Mitsubishi's 1080p DLP® 6-Color Processor generates yellow, cyan and magenta directly for brighter colors, a wider range of colors and whiter whites.

THIN FRAME

Thin Frame: The new Mitsubishi LCD TVs incorporate a super thin frame that delivers more picture in a smaller space than ever before. The thin frame accents our sleek, low profile, modern design.

 **RS-232**

RS-232 Control: Details the external RS-232C control communication with Mitsubishi rear projection and LCD direct view televisions introduced in 2003 and later.

New 2008 LCD Televisions

Thin Slim LCD Flat Panels Mitsubishi is proud to introduce our new line of Thin Slim LCD Flat panels. Our ultra thin frames allow maximum picture in minimum space. Get twice the color and see what you have been missing with xvColor. And get the front row experience with 1080p - the highest high definition.

Professional Series Plasma TVs

6 Reasons for You to Go Pro

1. **Because of the Warranty:** The PRO Series has a two year warranty for all applications while the consumer model only has a one year warranty which is voided upon commercial application. 1080P panels have a 100,000 hour life expectancy. 720P have 60,000.
2. **Because of the Durability:** "Durable Front Glass" is 10 times stronger than LCD!
3. **Because of the Image Rendering:** The PRO Series displays moving images better, reproduces colors faithfully (rather than artificially) and expressions black with more detail and precision than the consumer variation.
4. **Because of the Interface Options:** The PRO Series boasts three slots for multiple interface combinations. The consumer model? Just one slot, and that's taken by the tuner.
5. **Because of the Scalers:** The PRO Series has a superior scaler hosted on one chip, with other functions supported by additional chips. The consumer model combines all functions on one diminished capacity chip.
6. **Because of the Functionality:** The PRO Series does just about everything you could ever want in a television — **Video Wall Capable up to 5x5, Wireless Presentation Capable, External optional Speakers, Weekly Command Timer built into monitor, Anti-Glare comes standard, RS-232 Control, Digital Zoom, Vertical Mounting Ability, Energy-Saving Functions, Touch Panel aftermarket option, and more!**

The TiVo Experience is a lot more than just owning a DVR.

When you connect your TiVo DVR to your home network and high-speed Internet connection you get so much more than just a basic DVR.

- Download thousands of movies and TV shows from Amazon Unbox
- Listen to millions of songs with the Rhapsody music service
- Share photos and home movies with friends & family
- "TVTransfer" your favorite TV shows to your laptop or iPod using your PC or Mac

Over 91% of TiVo users would recommend it to their friends

TiVo Series3 HD DVR The world's first THX certified DVR, the TiVo HD DVR delivers the highest quality home theater audio-video experience

- 300 hours of standard definition recording capacity, 25 hours of high definition
- Easily connect to home networks with built-in Ethernet & USB ports
- Record 2 live HD channels at once, while playing back another previously recorded channel
- Outputs: HDMI, Component, Digital Audio, S-Video, Composite AV, Ethernet, 2 USB, 2 CableCARD slots

TIVO3.....MSRP \$799

TiVo HD DVR A High-Definition product at an affordable price, combining the intelligence of the TiVo service with the razor-sharp clarity of HD recording

- 180 hours of standard definition recording capacity, 20 hours of high definition
- Easily connect to home networks with built-in Ethernet & USB ports
- Record 2 live HD channels at once, while playing back another previously recorded channel
- Outputs: HDMI, Component, Digital Audio, S-Video, Composite AV, Ethernet, 2 USB, 2 CableCARD slots

TIVOHD.....MSRP \$299

More than just a DVR... Features available only with TiVo

TiVo Mobile (seen at right)

Verizon Wireless customers can now see what's on TV and schedule TiVo recordings from their cell phone, and it's just as easy to use as your TiVo box at home! TiVo Mobile, a brand-new application from Verizon Wireless, lets you see what's on TV, and schedule TiVo recordings from almost anywhere.

Home Movie Sharing

Enjoy making home movies of your kids, spouse, and road trips? Share the footage with family and friends across the country on their TV! Rather than going through the lengthy process of burning and mailing DVDs, or viewing videos on a computer, TiVo provides a private channel for family and friends to share photos and videos on their TV set. *Broadband connection necessary.

Amazon Unbox on TiVo

The Amazon Unbox video downloads store has thousands of DVD-quality TV shows, movies, and more for you to purchase or rent. You can search for Unbox videos anywhere on Amazon.com or you can go directly to www.amazon.com/unbox and browse by TV channel, movie studio, category, or genre.

*Broadband connection necessary.

Wireless G USB Network Adapter

- Eliminates the need for a phone line by using broadband connection
- Easily connect TiVo® to 802.11g or 802.11b wireless home network
- Enjoy TiVoToGo™ and Multi-Room Viewing transfers, Music and Photos, Online Scheduling, and more

AGO100.....MSRP \$59

Radio & Podcasts

TiVo is music to your ears. And podcasts to your ears, too. We channel the best of Internet radio directly to your home entertainment system for your listening pleasure. Tune in to everything from oldies to goodies with Live365, the Internet's largest radio network. Find and listen to thought-provoking and entertaining Podcasts

TiVoToGo — Where You Go, TiVo Goes

Take TiVo along for the ride! Send TV programs (non-HD only) recorded on a TiVo box to a networked computer or laptop, or transfer a personal playlist of videos to your handheld device. Owners can even set the TiVoToGo software to search overnight for new episodes and automatically load them into their portable player by morning.

TiVoToGo software plays non-HD content, works with both Mac and Windows computers and is currently compatible with the following portable devices:

- Apple iPod
- Playstation Portable (PSP)
- Creative Zen
- Toshiba gigabeat
- Nokia n80
- Vision:M
- Palm Treo

Wireless Lighting Control Perfect for New and Retro Construction

JetStream uses wireless, radio frequency technology and existing wiring in a home or business to create a distributed lighting control system. JetStream's Zigbee™ based technology creates a self-forming, self-healing, mesh network that is easy to install and operate.

System Features & Limitations

JetStream can easily be expanded to 200 devices. Choose from 1 or 3 button dimmer or keypads, accessory keypads, lamp modules, tabletop controllers and a car remote. All devices are easily added to the system.

- Up to 100 Scenes
- Up to 50 timed events
- 512 dimming levels: preset dimming levels for each load, every load is capable of dimming, and soft ON/OFF is 0-800 seconds for each control
- Simple installation and configuration
- Configuration stored in each device, with a backup on PC during configuration
- 5 year limited warranty

Wall Dimmers/Keypads

Traditional styling that blends into any setting, the Jetstream keypad is raised with contoured edges and pointed corners. Slightly rounded buttons react to a simple touch.

- White, Light Almond, Ivory and/or Black
- 1 or 3 button configurations
- Blue LEDs with intensity control for day/night settings
- Keypad can be configured to control remote loads or scenes
- Each button has two customizable functions: single tap & double tap
- Custom engraving available

Get the Most from Your System: Accessories and 3rd Party Interfacing

Tabletop Keypad (right) — 8 button, low profile console. Provides convenient control of individual loads or scenes.

Lamp Module (left) — Add lamps to the network with the lamp module (max 300W). Control lamps locally at the lamp module or remotely as an individual load/part of scene.

Car Remote (right) — Provides 3 buttons to control scenes; powered by 2 Lithium CR2032 batteries (included). The car remote includes a metal clip to mount to car visor.

IR Remote Control Receiver (left) — Control your JetStream lighting system with a Phillips compatible IR remote and the IR Remote Control Receiver.

RS-232 Bridge (right) — Available to connect other automation products to the JetStream system via an RS-232 interface. Includes onboard astronomical clock for control of timed events.

JetPak Security & HVAC Addition — JetPak combines Centralite's lighting control technology with state-of-the-art security and HVAC control providing an incredibly robust and affordable home automation solution. Additionally, the system provides inputs for optional devices including blinds control, sprinklers, cameras and other products of convenience and security.

Wired, with Greater Expansion Perfect for New Construction

Open system architecture allows for easy integration with many other home automation devices including cameras, motorized blinds, sprinkler systems, audio systems, and thermostat control.

LiteJet System Features

While LiteJet offers features typically found only in high-end systems, the low voltage system is simple to install and easy to use.

- 24 max zones per unit, upgradeable to 48
- Phase controlled dimming method
- 8 amp standard dimmer capacity
- 30 max scenes per unit
- 96 max inputs per unit
- 12 max number of timed events
- CAT5 Keypad/Control wiring
- RJ45 connectors
- 3-phase compatible
- Astronomical clock
- Two 3rd Party RS-232 ports
- Vacation/Alert Mode
- All On/Off Mode
- Soft On/Off
- 5 year limited warranty

OPTIONAL FEATURES:

- Fan speed controller boards
- Low voltage relay board
- Touch panel programmer
- Key chain remote

Touch Panel Programmer

Attractive keypad selections reduce wall clutter common with conventional wall switches.

Traditional Switchplate

LiteJet Keypads

Finesse Keypads

- 2, 4, 6, & 8 button

- Almond, ivory, light almond, white
- Green LEDs

Europa Keypads

- 2, 4, & 6 button
- Almond, black, ivory, light almond, white
- Green LEDs

Mystique Keypads

- 1, 2, 3, & 4 button
- Almond, black, ivory, white
- Green or blue LEDs

Ultra-Mercedes Keypads

- 2, 4, & 6 button
- Almond, black, ivory, white
- Blue LEDs

LiteJet Value Pack

- 24 load system
- One dimmer/master control panel
- Requires one switchset
- MSRP \$4,499

LiteJet Super Pack

- 48 load system
- Two dimmer/master control panels
- Requires two switchsets
- MSRP \$9,199

Individual pieces and components such as switchsets, keypads, dimmers, remote kits, touch panel programmers, etc. are available by the each.

vizia rf +™

Vizia RF Lighting Control using Z-Wave

Vizia RF : wireless home control solution preferred by professionals

What does Z-Wave do that's so great?

Vizia RF + incorporates Z-Wave® technology, a versatile home control technology that effectively transforms any component – switches, lighting controls, shades, thermostats, appliances and more – into an intelligent device that can be wirelessly controlled and monitored. With Vizia RF +, you can automate your home without new wires by upgrading your standard dimmers and switches with intelligent Vizia RF + components.

1 Touch of a Button: *Coming Home*

- Garage door opens
- Entryways light up
- Home security system recognizes the homeowner
- Front door unlocks
- Favorite music plays
- Thermostat reconfigures to preset temperature
- Sprinklers turn on/off

1 Touch of a Button: *Retiring for the Night*

- Turn off house lights
- Activate security system
- Turn down the thermostat
- Lock the doors
- Turn on the bedroom humidifier
- Even set up the coffee pot to greet you with a fresh cup when you awake!

All added easily and inexpensively to your home. All with no new wiring.

With built-in Z-Wave® wireless technology, home owners can automate lighting, home appliances & electronics with the touch of a remote*.

* Including the Logitech 890PRO shown on page 21

The Vizia Control Collection

Everything you need for easy, energy-efficient lighting and home control is in the Vizia+ and Vizia RF+ collection.

Structured Cabling *Get Connected*

Starting with the basic building blocks of Telephone and Broadcast/Cable TV distribution, you can choose structured cabling enhancements that can tap into various – and sometimes extremely advanced and complex – connectivity capabilities. These enhancements are modules that simply snap into the Structured Cabling Center and include:

- **Satellite Distribution**
- **Video Monitoring (Broadband Video/CATV)**
- **Multi-Room Audio**
- **Multi-Room Video**
- **Intercom System**
- **Networking**
- **Internet Sharing**
- **Digital Multimedia & Entertainment Distribution**

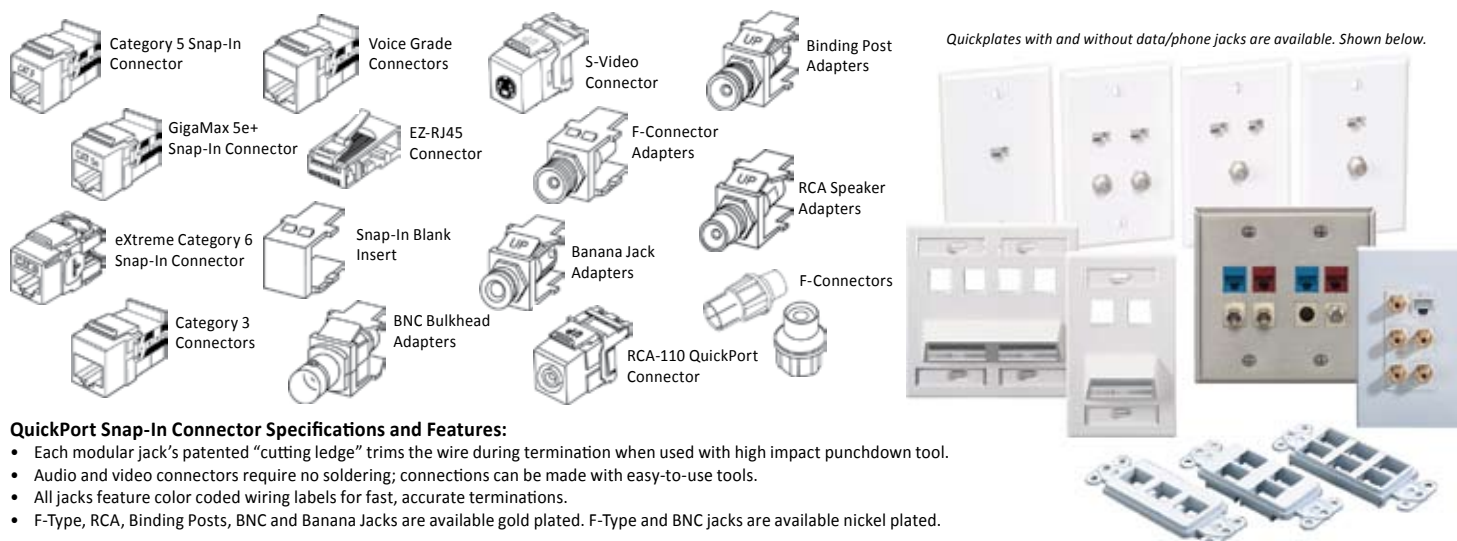

QuickPort Control QuickPort Snap-in

Connectors and Adaptors were created to meet the demands of modern technology with a decidedly sophisticated touch.

QuickPort Single-Gang/Dual-Gang Wallplates accept any QuickPort Snap-In Adaptor.

QuickPort and QuickPlate pieces offer the installer the quickest, easiest and most economical installation with pre-configured, pre-assembled plates, easy punch-down jacks, and F-connector bulkheads. This line of audio, video, voice and data jacks is available in various combinations and can be quickly inserted into Leviton Quickplates.

QuickPort Snap-In Connector Specifications and Features:

- Each modular jack's patented "cutting ledge" trims the wire during termination when used with high impact punchdown tool.
- Audio and video connectors require no soldering; connections can be made with easy-to-use tools.
- All jacks feature color coded wiring labels for fast, accurate terminations.
- F-Type, RCA, Binding Posts, BNC and Banana Jacks are available gold plated. F-Type and BNC jacks are available nickel plated.

The most intelligent evolution of simple, one touch control.

- One-touch simplicity at it's best
- Computer based set up
- IR and RF Communication
- 3.5" Touch Screen • Universal control (over 5,000 brands) • Rechargeable lithium-ion battery

LOGITECH HARMONY1000 MSRP \$499

RF Extender

Gain complete control of components hidden behind cabinets or walls. With a range of up to 100 feet, place equipment out of sight or to the next room. Z-Wave™ (RF) Technology enables remote control of audio, visual, lighting, climate, and security systems without direct line-of-sight.

RFEXTENDER.....MSRP \$99

Harmony 890PRO

The Harmony 890PRO uses both RF Multi-Zone & IR signals so you can control units through walls, inside cabinets and in multiple rooms!

- Utilizes Z-Wave Technology to control lighting, blinds and other devices throughout the house
- 100 ft. range
- Color LCD
- Recharging station
- AC adapter
- USB cable
- Lithium-ion battery

MSRP \$349

Harmony 670

The Harmony 670 was designed specifically for frequent DVR users. Choose the activity wanted, not the component to control.

- Most commonly used DVR controls are centrally located
- Programmable buttons allows for configuration of whole entertainment system
- LCD monochrome display
- Backlit keypad buttons
- AAA battery
- USB cable

MSRP\$149

Harmony 880PRO

The Harmony 880PRO uses IR signals, learns based on user activity, and features dedicated sound and picture buttons.

- Sound and picture buttons allow for the creation of customizable menus to organize all commands of AV components
- DVR-friendly button layout
- Color LCD
- Recharging station
- AC adapter
- USB cable
- Lithium-ion battery

MSRP \$299

NevoQ50 Remote New Evolution in Home Control

Nevo is a stylish one-handed universal controller that intuitively delivers complete home entertainment control. Designed with a 2.5" customizable color touch screen and 31 programmable hard keys, the attractive Nevo will accentuate the room, providing both form and function. Enjoy the simplicity of one-touch control!

Universal Control of Entertainment Systems and Home Theater

- Large, built-in IR database for A/V control
- Easy-to-use "Learning" feature for hard to find codes

Powerful Control in an Intuitive Interface

- 31 programmable hard keys
- Fully customizable 2.5" color touch screen
- Reliable wireless control using 2-way RF Communications (Z-Wave)

Customizable and Easily Personalized

- Professional installers use NevoStudio Pro software for full customization and setup to simplify the most complex environments
- Create personal buttons and backgrounds to easily identify user commands
- Fully customize a single look or mix a match

Nevo Q50 Package Contents

- Nevo Q50 Universal Controller
- Charging Cradle • 5V DC power adapter
- NevoStudio Pro Software
- Mini USB Cable • Instructional Manual

NEVOQ50..... MSRP \$699

NevoConnect NC-50 Base Station

Gain complete and reliable control of components that are in another room or hidden inside cabinets. NevoConnect NC-50 is a versatile base station that uses 2-way RF (Z-wave) to communicate with Nevo50 and NevoS70 (see below).

Features include: RS-232, 7 individual IR blasters, IR and Serial output, and power and video sensing input for seamless macro execution.

Sensors & RS-232 modules sold separately.

NC-50 MSRP \$299

NevoS70 Remote

The Next Evolution

NevoS70 is a universal controller that intuitively delivers total control of entertainment and digital media devices in today's connected home as well as access to online information and web services.

With an elegant one-handed design and a brilliant 3.5 inch color touch screen, it can be personalized for every user in the home.

Combined with the industry's largest professionally maintained infrared (IR) database, NevoS70 offers the widest array of features of any remote in its class. In addition to the rich array of features, everyone in the home will admire the sleek design of NevoS70 as it blends into both modern and traditional décor.

NevoS70 features include:

- Non-line of sight control using Z-Wave™ bidirectional wireless communications to ensure reliable command execution and to show the power status of entertainment equipment in the home
- Extended battery life and broad home coverage
- Connection to the home network for multimedia control with industry standard wireless technology (802.11g)
- Ability to view and control any device that has a compatible embedded web server, such as many web-based cameras and media servers
- Control for many home automation devices
- Access to web-based services to deliver real-time information such as news, sports and stock quotes

NEVO S70 MSRP \$1,199

Nevo Accessories simpler and Smarter

Video Sensor (right)

Seamless macro operations of video devices that only support toggle power commands • Supports NTSC, PAL, or SECAM • Works in composite and component video output ports • RCA and IR pass-through

Voltage Sensor (right)

Seamless macro operations of equipment that only supports toggle power commands • Triggers on AC and DC, up to a 24V signal • Removable 2-pin screw connector (up to 14 AWG) • IR pass-through

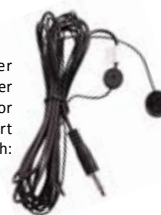

Serial Module (right)

DB-9 Male connector • Supported baud rates: 1200, 2400, 9600, 19.2K, 38.4K, 57.6K and 115K • 3.5mm plug for NevoConnect

IR Emitter (right)

Compatible with other standard 3.5mm IR emitter products • 3.5mm plug for NevoConnect NC-50 port connection • Total length: 12 feet

ICE Cable Systems

ICE Cable Systems is a complete line of bulk wire and cable designed for residential custom installation. Featuring superior quality, one-stop shopping and sharp pricing. ICE is the only line of bulk wire you'll need.

Oxygen Free Copper - Why is it so important?

Behind the demand for Oxygen Free Copper is the theory that oxygen-free copper will have enhanced conductivity or other electrical properties that are significantly advantageous to low frequency (audio) signal transmission.

Superior Technology. Superior Quality.

ICE Reference Series Speaker Cable, Coaxial Cable and Category Cable feature the best of what both installers and homeowners are looking for — quality and ease of use.

iLabel Marking System

Identify and pre-mark cable for each room, wall and jack location. Cables come preprinted with location and application information that can easily be circled with a Sharpie.

Round Jackets

The rounder, the better — less likely to snag. Engineered with no filler material so stripping is easy.

EZ-strip Tissue

A thin layer of tissue around the conductors and under the outer jacket makes the cable much easier to strip.

Ultra Wide Bandwidth

All RG-6 and Broadcast Grade RG-59 Serial Digital cables are sweep-tested to 3GHz. Plenty of bandwidth for HDTV with room to spare!

Wet Flex Jackets

Pulls easier. Shiny with a slick feel, resulting in less friction.

Ascending/Descending Footmarkers

Know how much has been used and how much there is left to go.

Satellite/Cable TV

Designed for satellite, RF, cable, MPEG-4 and more.

Big Mouth Payout

20 times larger than normal for faster and more efficient payout.

REFERENCE SPEAKER CABLE

16-2/FX, 16-4/FX, 14-2/FX, 14-4/FX, 12-2/FX, 12-4/FX; Direct Burial, OFC, High Strand Counts, Wet-Flex jackets, EZ Strip Tissue, iLabel System

Extended Warranty Coverage

Homeowners spend millions on consumer electronics and custom integration each year. After such an enormous purchase, peace of mind is an easy investment to make.

Why purchase a Full Circle service plan with your install?

Investment Protection

- 100% Coverage on parts and labor
- No limit on service costs or number of repairs
- All plans fully insured

Save Money

- Protect against untimely future repair and product costs
- No deductible, hidden costs or out-of-pocket expenses
- Product replacement if necessary

Save Time

- No hassle
- Fast repair work and product return
- Toll-free hotline to serve homeowners' needs

Transferable and Renewable

- Fully transferable (to a new owner, not product/item)
- Renewable Coverage, many plans can be renewed at the end of the first term

Single Item Coverage Available

- Plasma Television • LCD Television • CRT Television
- Remote Controls • Gaming Consoles • Amplifiers
- DVD/CD/VCR Recorders & Players • Tuners
- Satellite Receivers • Portable AV Players
- Mobile Audio Equipment and Televisions
- Commercial Application Televisions
- Full Home Installation Coverage
- MicroDisplay Televisions
- Bulb Replacement

Choose the plan that best fits your needs and rest easy.

Invest now. Save later.

Many custom installation jobs entail a large, varied assortment of products and technologies. No single product warranty is suitable to cover these jobs—*Platinum Protection* is needed.

Coverage includes, but is not limited to:

- Televisions
- Projectors
- Tuners
- Amplifiers
- DVD/CD/VCR player/recorders
- Satellite receivers
- DVRs
- Media PCs
- "Lift" boxes, other motorized units for picture frames, etc.
- Central control units (e.g., Control 4 type devices)
- Remotes
- Lighting systems
- Wiring
- **AND most importantly...labor for "in-home" diagnosis, removal and/or reinstallation of all components in the covered system**

Coverage price ranges between \$5,000 and \$249,000 and is dependent on the overall value of your custom installation job. In other words, pricing takes place on a sliding scale based on the costs involved in the custom installation job. Choose between three or five year coverage.

The Platinum Protection Plan
